SAVE GM LUTON MANUFACTURING!

We, the undersigned, are petitioning our Government to stand up and back GM Luton. Thousands of jobs are at stake, not just within the plant but also the 500 suppliers to it. A closure of the Luton plant will not just affect Luton and surrounding areas but up to 15,000 jobs nationwide.

The German Government have committed 1.5 billion Euros to safeguard German plants. We cannot afford to sit back and let our plant close.

The Luton plant produces a quality product that yet again has been voted European van of the year. Vauxhall has been manufacturing in the area for 105 years. Let's not lose that tradition because we sat back and waited.

WE WILL FIGHT FOR OUR JOBS
We need the Government to fight too...before it's too late

SAVE GMM LUTON
